# ONTARIO

The Province of Ontario, Canada produces and exports an extensive variety of manufactured goods to every world market. Ontario products are in use in 142 countries around the globe.

Now you can see or obtain information on the sum total of Ontario's manufactured products in one convenient location—the Ontario Trade and Travel Centre in the heart of downtown Toronto, 145 King Street West, in the new York Centre.

Here in spacious display areas you view a broad range of the type of products manufactured in Ontario, plus new products as they are introduced for the first time. A library of manufacturers' catalogs, audio visual presentations of products in use,

and export tariff and documentation advice are also available.

Plan to include a visit to the Ontario Trade and Travel Centre on your next stay in Toronto.

Your stopover can be doubly rewarding. You'll see Ontario products and you can also obtain travel advice on the Province's scenic attractions at the Ontario Travel Information Centre.

# SHOWPLACE

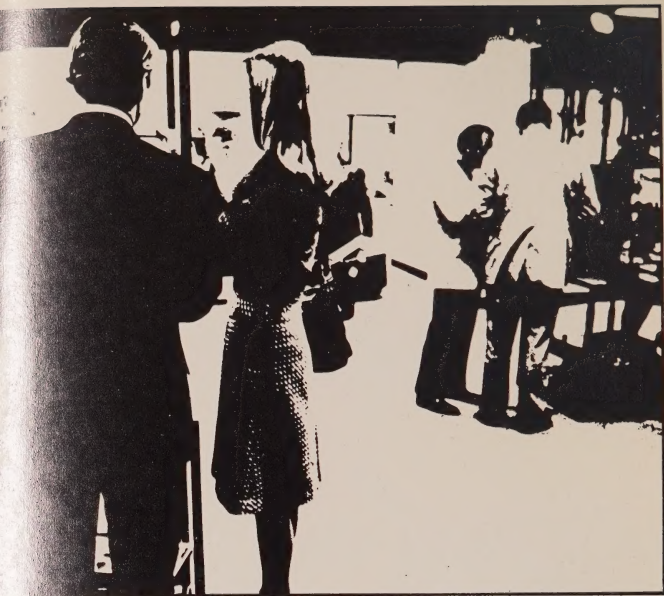

Make plans now to see Ontario's products at the Centre. It may be the most rewarding stop on your business trip.
